## RD130C Air Power

### Features

- Atlas Copco Pneumatic motor for safety in hazardous areas
- Mechanically activated permanent magnetic base
- For safety, the machine is built with a high zinc alloy body for spark resistance. Moving components are manufactured in anti-corrosive materials
- Stainless steel spindle and guard for corrosion are manufactured for resistance in harsh environments
- For use in any environment where and electricity supply is not available
- Designed for use in petro-chemical plants, offshore oil platforms and other hazardous environments
- Drill chuck attachment available
- ATEX Approved
- II 2G T4 II D110 C
- Zone 1 Category 2

Standard Air Power

RD130C Specifications	
Model number	RDC130C
Overall dimensions	maximum height 540mm Width 175mm over handles Length 370mm over magnet handle
Weight	20.6 kgs
Air consumption	13 lts/sec - 28 CFM @ 6.3 bar min
Max hole cutting capacity	52mm dia x 50mm deep
Torque at max output	37Nm - 27lbf.ft
RPM at max output	160 rpm
