COMPRESSORS PUMPS

240V SINGLE PHASE COMPRESSORS

Domestic, trade and small industrial users who need a reliable heavy duty air compressor need look no further than Airmac's 240 Volt range. With a choice of seven portable and two stationary models, there's an Airmac air compressor to suit just about every application.

All Airmac compressors use genuine Fusheng compressor pumps which feature stainless "Poppet Valving" cast iron housing & heads balanced steel crankshaft main roller bearings.

Avoid poor quality products by checking for the white triangular "FS" Trade Mark.
