

Ventilating Fan
Ventilating Fan - Americ
 Model Number: VAF-3000

Features: Rising above the rest & blowing away its competition, the state of the art VAF-3000 brings advanced technology to the axial fan industry with its lightweight, durable plastic shell design. Virtually maintenance free, the vane axial fan encompasses reliability, portability, durability & power.

Powerful: incredible maximum capacity of 59 m3/min.
Lightweight:

At only 14.74 kg, the plastic shell design contains a centrally located handle for effortless maneuverability.

Durable: Constructed with weather resistant, high density polyethylene plastic, the dual wall design protects the interior fan chamber from external damage.

Stackable: Utilizing the interlocking ribs will maximize storage capacity by stacking the vane axial fans vertically. Using a .75 kW (1hp) motor, this compact unit allows both positive & negative airflow at anThe reliable VAF-3000 will provide the power required for most ventilation applications.

Accessories

Part No.	Description	Specifications
AIP-DUCT	Duct	6m x 305 mm (12") dia.
AIP-JOIN	Coupler	Dust Joiner 305 mm (12") dia.
VAF-CDA-3000	Carpet Drying Attachment	-
VAF-DSR25-12P	Duct Carrier	-

Electric

Part No.	R.P.M	Air Flow (m3/min)	Volts	Input Current (amps)	Motor Output (watts)	Weight (kg)
VAF-3000	2850	59	240 V	4.2	750	14.7

Pneumatic

Part No.	R.P.M	Air Flow (m3/min)	Motor Output (watts)	Weight (kg)
VAF-3000P	3000	58	1.5	12.7
