

German Tec offers a comprehensive line of chisels for a wide range of application. Suitable for combination, chipping and demolition hammers with SDS-PLUS, SDS MAX and 21mm K-HEX tool reception.

Premium Performance

- Tough cutting edge design for outstanding performance
- Optimised hardening keeps chisel sharper for longer
- Stronger chisel body for maximum impact force

Premium Quality

- Made from only first class highest quality steels
- High precision tool reception for maximum compatibility
- Chisels allow re-sharpening / re-forging for extended life

Premium Manufacturing

- ISO 9001 Certified Production
- Batch No. on every chisel for best quality assurance
- Controlled production processes guarantee consistent quality

Suit combination and chipping hammers using SDS Plus tool reception

SDS PLUS

Description	Length (A) mm	Width (B) mm	Part No.	Barcode
Pointed Chisel for a wide range of breaking and demolition work of brick, concrete and besser blocks.	250	-	SPCP250	9343605001517
Flat Chisel for a wide range of breaking and cutting of brick, concrete, besser blocks and demolition work.	250	20	SPOF25020	9343605001524
Wide Chisel stripping walls and floors of plaster and tiles, removing deposits of rust and scale metal.	250	40	SPCW25040	9343605001531
Tile Chisel angled edge for tile removal, stripping walls of plaster, removing deposits and scale metal.	250	40	SPTCT25040	9343605001548
Tile Chisel Pro ergonomic, angled, particularly designed for fast and easy tile removal.	250	50	SPTCT25050	9343605001555
Chasing Chisel cutting grooves into walls for pipe work and electrical conduit in brick, besser block and concrete.	250	22	SPCH25022	9343605001562

Suit combination and demolition hammers using SDS Max tool reception

SDS MAX

Description	Length (A) mm	Width (B) mm	Part No.	Barcode
Pointed Chisel for a wide range of breaking and demolition work of brick, concrete and besser blocks.	280	-	SMCP280	9343605001579
Flat Chisel for a wide range of breaking and cutting of brick, concrete, besser blocks and demolition work.	400	-	SMCP400	9343605001586
	600	-	SMCP600	9343605001593
Flat Chisel for a wide range of breaking and cutting of brick, concrete, besser blocks and demolition work.	280	25	SMCF28025	9343605001609
	400	25	SMCF40025	9343605001616
	600	25	SMCF60025	9343605001623
Wide Chisel stripping walls and floors of plaster and tiles, removing deposits of rust and scale metal.	360	50	SMCW36050	9343605001630
	300	80	SMCW30080	9343605001647
Tile Chisel Pro ergonomic, angled, particularly designed for fast and easy tile removal.	380	50	SMCT38050	9343605001654
Chasing Chisel cutting grooves into walls for pipe work and electrical conduit in brick, besser block and concrete.	300	26	SMCH30026	9343605001678
Clay Spade (pointed end) for digging in clay and harder ground like chalk or shingle, general landscaping and fencing. Not suitable for concrete	400	110	SMCS400	9343605001661
Pointed Chisel for a wide range of breaking and demolition work of brick, concrete and besser blocks.	450	-	KCP450	9343605001685
Flat Chisel for a wide range of breaking and cutting of brick, concrete, besser blocks and demolition work.	450	25	KCF45025	9343605001692
Wide Chisel stripping walls and floors of plaster and tiles, removing deposits of rust and scale metal.	300	50	KCW38050	9343605001708
Clay Spade (straight end) for digging in clay and harder ground like chalk or shingle, general landscaping and fencing. Not suitable for concrete	533	110	KCS533	9343605001722

KANGO 21HEX

Suit combination and demolition hammers using 21mm K-HEX tool reception
