- Industrial Cleaning
- Graffiti Removal
- Municipal Street Cleaning
- Oil Refineries
- Construction Sites
- Concrete Cleaning
- Plant Hire
- Agriculture
- Food Industry

At Brendon we can control all of the manufacturing processes. Thanks to our skilled in house team we Design it, Cut it, Bend It, Weld it, Mold it, Paint it, Build it and finally Test it!

That's a great depth and strength to have and it allows us to adapt and react quickly to build and deliver just what our customers need and when they need it!

Our machines are "BUILT TO LAST" and many machines are still working reliably after more than 30 years of service.

Parts and service back up is very important to us and we pride ourselves on our next day parts availability.
